

SIG GROUP NAMES

- Vantage Plan Engineering SIG - VPE SIG
- Vantage Plant Design SIG - VPD SIG
- Vantage Project Resource Management SIG - VPRM SIG

Special Interest: Aveva Software Products

Meeting Frequency: Semi-Annually

SIG Officer/Industry Liaisons: (see Committees page)

SIG MISSION STATEMENT

To work with the user base, software users, and explore shared ideas for potential software improvement. Disseminate information regarding the use of the software and promote solutions to assist the Viewpoint Technical Committee.

GOALS

To meeting at least twice a year (TBD) face to face at SIG Forums in the US. To hold at least a one day meeting to include the following:

1. SIG Opening includes SIG announcements, officer recognition and other general SIG issues.
2. User presentations to hold (1) one hour user presentation to share ideas on potential software enhancements in which they utilized Vantage software.
3. Product Demonstrations to hold a (1) hour product Demonstration on the software product.
4. Round Table Discussion to hold (1) hour discussion Q&A and/or brainstorming regarding software product.
5. SIG Closing includes next SIG meeting announcements and Q&A regarding other SIG issues.
6. SIG Reporting - issue a report of the meeting to the Technical Committee for further discussion.
7. The SIG officers, product liaisons and Viewpoint Technical Committee chair will meet at least once a year face to face to discuss SIG strategy, issues and procedures. The Viewpoint Technical Committee Chairperson will assist with determining the time and place.

TARGET MEMBERS:

EPC and Owner operators, current and future users.

TECHNICAL CONTACTS:

Current SIG chairperson and vice-chairperson.

MARKET CONTACTS:

Current SIG Aveva Liaison.

SIG EVENTS:

Meet twice a year at a determined location (TBD) Aveva office in the United States. Officer meetings will be held during the year once every two months by telephone. More meetings may be necessary to plan the two yearly general meetings, those will be determined during the planning stages.
